Thursday 9 May 2013

08.00-18.00  Registration

08.15-08.30  Presidential Welcome

08.30-10.00  Free Paper Session 1 – “Infectious Diseases”

- S. Gans: *The predictive value of CRP and WBC in the clinical diagnosis of acute abdominal pain*
- R. Luketina: *Staphylococcus aureus bacteremia is a challenge in surgery: Infectious disease consultation improves patients outcome and survival*
- S. Sinha: *Clostridium difficile infection: How Much do Hospital Staff Know About it?*
- L. Daniels: *Faecal microbiota composition in patients with a first episode of acute uncomplicated diverticulitis*
- M. Luperto: *Are the golden 72 hours a limit for early cholecystectomy for acute cholecystitis?*
- T. Mayumi: *Tokyo Guidelines 2013: Revised International Guidelines for diagnosis and severity grading of acute cholangitis*

*Chairs: Gurlich + Sautner*

10.00-10.30  Coffee Break

10.30-12.00  Symposium I – “Intra-abdominal infections”

- V. Adámková: *State of the art: Multidrug resistance patterns in Europe with focus on intra-abdominal and skin soft tissue infections*
- Ch. Eckmann: *The surgeons perspective: Treatment of MDR pathogens in intra-abdominal infections*
- M. Sanchez-Garcia: *Empirical or targeted antibiotic therapy for complex patients in the ICU*

*Chairs: Eckmann + Adámková*

12.00-12.30  Young Investigator Lecture

- B. van de Wall: *Update on the treatment of diverticulitis*
- **Introduction:** M. Boermeester

12.30-13.30  Lunch

13.30-15.00  Free Paper Session 2 – “Abdominal Sepsis”

- Baturshin: *Risk factors of NDM-1 producing Kl. pneumoniae in patients with peritonitis*
- Finka Jelic: “*Over the Scope Clips*” (OTSC) to treat anastomotic leakage in visceral surgery
- P. Brandão: *Determinants of outcome after pancreatic necrosectomy*
Thursday 9 May 2013 continued

- A. Bellés: Assessment of Clinical Risk Factors in the Perforated Appendicitis
- M. Yokoe: Tokyo Guidelines 2013: Revised International Guidelines for diagnosis and severity grading of acute cholecystitis
- **Chairs**: Ferko + Boermee

15.00-16.30  Symposium II “Keeping Ahead of Clostridium difficile infection (CDI) in the Surgical Setting”
- V. Adámková: Welcome and Introduction
- P. Gastmeier: Epidemiology of CDI: Quantifying an Ill-defined Problem
- D. Charvát: Addressing the Hidden Burden of CDI
- S. Homer-Vannasinkam: Keeping One Step Ahead of CDI: The Role of the Surgical Team
- V. Adámková, P. Gastmeier, D. Charvát, S. Homer-Vannasinkam: Panel discussion and Closing Remarks
- **Chair**: Adámková

16.30-17.00  Coffee Break/snacks

17.00-18.30  Free Paper Session 3 – “Surgical site infections”
- Mattavelli: Effect of Triclosan-coated suture on surgical site infection after colorectal surgery: final results of a multicenter, prospective, randomized trial.
- C. Charbonneau: An Indirect Comparison of Clinical Success of Antimicrobial Agents for Confirmed Methicillin-Resistant Staphylococcus Aureus (MRSA) Complicated Skin and Soft-Tissue Infections (cSSTI).
- Y. Boo: Higher intra-abdominal surgical infection and readmission rates after laparoscopy in pediatric complicated appendicitis.
- L. Poch: Efficacy of a bundle of preventive measures to reduce surgical site infections in a Colorectal Surgery Unit.
- S. Amador: Effect of topical antibiotic on the rate of postoperative wound infection after emergent dirty surgery.
- J. Maris: A Simple Intervention to Improve Wound Healing: Targeted Amino Acid Supplementation in Diabetic Foot Wounds
- **Chairs**: Štefka + Rasa

18.30 – 20.00  Get-together

20.00  Speakers’ Dinner
Friday 10 May 2013

08.00-18.00  Registration

08.30-09.30  Symposium III – “Appendicitis”
- M. Leeuwenburgh: Imaging in acute appendicitis
- K. Rasa: Appendicitis is not a clinical diagnosis – CON
- Ch. van Rossem: Antibiotics or surgery
- Chairs: Vyhnánek + Cainzos

09.30-10.30  Symposium IV - “Diverticulitis”
- B. vdWall: Do abscesses in diverticular disease prelude surgery?
- M. Stam: Risk factors of recurrent diverticulitis
- C. Unlu: What determines the disease course?
- Chairs: Lisý + Schroeder

10.30-11.00  Coffee break

11.00-11.30  Invited Lecture
- B. Cheadle, SIS-NA: Intestinal fistulas
- Introduction: H. Van Goor

11.30-12.00  Semmelweis Lecture
- B. Allegranzi, World Health Organization: Global reduction of surgical infections from WHO perspective
- Introduction: J. de Waele

12.00-12.45  Presidential Address
- T. Sautner
- Introduction: R. Andersson

12.45-13.45  Lunch + Poster Rounds

13.45-15.00  Symposium V - “Peritonitis”
- V. Adámková: Epidemiology of peritonitis
- N. Demartines: The treatment of bacterial peritonitis
- E. Mueller: The fungal site of peritonitis
- Chairs: Adámková

15.00-16.30  Free paper session 4 – “Abdominal Surgery”
- Chaturvedi: Ultrapure alginate based anti-adhesion gel does not further increase Carprofen induced anastomotic complications in rat ileum.
- Ch. Binner: Clostridium difficile in heart surgery: increased risk for mortality or an overestimated problem?
- S. Coppola: Biologic meshes in the management of high-risk patients and abdominal wall defects. A single center study
- V. Costa Simões: Lessons learned from surgical management of liver hydatidosis
- E. Boeker: A practical tool to reduce adverse drug events in surgical patients, validation of surgical drug rules.
Friday 10 May 2013 continued

- **Chairs**: Lisý + Gianotti

16.30-17.00  Coffee Break/Snacks
17.00-18.00  Business Meeting
20.00  Gala Dinner

Saturday 11 May 2013

09.00-10.30  Symposium VI - “Complicated intra-abdominal infections and global guideline SSI”
- X. Guirao: *Approaches to guidelines when there are no RCTs*
- J. de Waele: *Antibiotic resistance*
- J. Solomkin: *US CDC guideline update*
- **Chairs**: Třeška + Andersson

10.30-11.00  Coffee Break

11.00-12.30  Symposium VII - Sepsis and Foreign Material “Vascular graft infection”
- M. Špaček, V. Jindrák, O. Bělohlávek, J. Lindner: *Detection of vascular graft infection – current trends in diagnostic techniques and microbiology*
- R. Kolvenbach: *Role of Silver Grafts in the Increasing Number of Vascular MRSA Patients*
- V. Třeška, B. Čertík, J. Moláček, K. Houdek: *Aortic graft infections*
- J. Hrubý, M. Špaček, P. Mitáš, T. Klika, J. Lindner: *Vascular surgeon’s choice in a patient with high risk of infection*
- **Chairs**: Lindner + Kolvenbach

12.30 – 13.00  Closing Ceremony
- President of the SIS-E, Professor T. Sautner, President and organizer of the next European Congress on Surgical Infection 2014 - Vienna
- President of the 26th European Congress on Surgical Infection, Professor J. Lindner

13.00  Lunch
